

Water Tanks

ISI:12701

1996

Roto Mould ISI

INDO PLAST ISI is a superior quality rotational moulded water tank conforming to IS 12701:1996. Rotational moulded grade Polyethylene(PE), which is duly stabilized with anti-oxidants, is used as raw material for manufacturing of this tank. The compound hence formed provides protection against heat and oxidation of tanks. The nominal service temperature of Vectus ISI tanks varies from 1°C to 50°C. Since, we use the conventional rotational moulding technology for manufacturing of these tanks, the finished product comes out to be stronger and more rigid as compared to other tanks in the market.

- 1 Virgin raw material
- 2 Heat & oxidation resistant
- 3 Smooth surface finish
- 4 Odour free
- 5 Available in sizes from 200 to 5000 liters.

Roto Mould 3,4 & 5 Layers

INDO PLAST Roto Moulding water storage tanks is made up of 3 & 5 layers namely white titanium layer, Environmental stress & UV sun-shield layer and antibacterial layer. The anti-bacterial inner layer prevents bacterial growth and keeps your water fresh.

Available Colour: Black & White

- 1 Virgin raw material
- 2 Anti-bacterial layer
- 3 Light weight yet super strong
- 4 Threaded lid
- 5 Available in sizes from 500 to 5000 litres

Blow Mould 3-Layer

INDO PLAST Blow Mould Tank is an economical blow-moulded water storage tank, made up of 3 layers- a white titanium layer (outer layer), a fine carbon distribution layer and anti-bacterial layer (inner layer). The anti-bacterial inner layer prevents bacterial growth and keeps your water fresh.

INDO PLAST uses 100% virgin raw material (LLDPE) & fully automatic machines to manufacture Water Storage Tanks. Our water tanks have the most hygienic water as the material used for them is 100% Virgin, Food-Grade, UV Stabilised for Heat Insulation and most importantly they all have an air-tight lid.

Long Life Odorless Water Anti Bacterial layers keep Water Fresh

Durable & Economical | UV Stabilized | Consistent Wall Thickness | Heavy Duty

Available Colours: White & Black

- 1 Virgin raw material
- 2 Anti-bacterial layer
- 3 Light weight yet super strong
- 4 Available in 3 layers
- 5 Available in sizes from 300 to 1000 liters
- 6 Threaded lid

Loft Tanks

INDO PLAST Loft tanks are specifically designed and manufactured for kitchen and household purposes. They are rectangular in shape and can be easily accommodated in kitchens and other places. For domestic purposes, these tanks are considered useful and efficient in an industrial setup because of their corrosion-resistant and chemically inactive nature.

- 1 Virgin raw material
- 2 Stylish design
- 4 Multipurpose usage
- 5 Suitable for small spaces
